On the Grow.
We Are Grambling.

It is an exciting time to be a part of Grambling State University. Enrollment is on the grow, building and infrastructure updates are underway, and we are excited about the historic program development happening as a result of the hard work of faculty, students, alumni, and staff.

From the much-anticipated success of our upcoming nursing cohort to the increase in degree concentrations and partnerships, the Grambling legacy continues to shine as an academic light to our state, nation, and countries across the world.

That light is continuously carried and grown by the educators and students who help make our institution great. This year they have presented at refereed conferences nationally and internationally. They have also produced scholarly and grant-seeking work that has resulted in one of the biggest increases in grants and scholarships in our school’s history. They have taken new tools, like smart boards and updated technology centers, and turned them into success that will benefit us for generations.

As a team, we remain dedicated to continuing this success and ensuring our students are well prepared to enter and thrive in the workforce and as academic leaders. That dedication demands that we not only remain grateful for all of the support we receive, it also requires that we maximize every opportunity to stay at the forefront of teaching, research, and serving our community.

Let us continue to build on this strong and rich legacy as educators and nurturers. Together, we can firmly cement our institution as a cutting-edge leader in research and innovation excellence.

We can because we are Grambling.

Richard J. “Rick” Gallot, Jr., JD
President
A Message

...........from the Provost & Vice President
At Grambling State University, we are committed to preparing our students to become productive citizens in an ever-changing society. Our rich and storied history continues to serve as our foundation. We embrace a culture that promotes excellence, leadership, diversity, and creativity. As we prepare our students and serve the needs of the community, our goal is to add value to lives through teaching, research, and service.

This is an exciting time in the history of Grambling State University, “the place where everybody is somebody.” We are positioned for academic excellence as we champion the concept that “teamwork makes the dream work.” And our current and future students further strengthen our mission and tell our story. Grambling State University continues its dedication to the academic integrity of our degree programs. Our focus on retention, learning, service, accountability, graduation, and faculty development form the core of our motivation to lift the masses through education.

As Provost and Vice President for Academic Affairs, I am privileged to oversee an amazing division that offers degree programs led by faculty members from some of the most outstanding higher education institutions in the world. Our enrollment management, institutional effectiveness and university college teams work in concert with the academic departments to ensure the success of our students. We are one united with purpose and a passion to impart knowledge and promote discovery to those who desire to embark upon the journey.

We take pride in the accomplishments of our faculty, staff, students, and alums. It is an honor to share this snapshot report with you.

We Are One.

Ellen D. Smiley, Ed.D.

The mission of the Office of the Provost and Vice President for Academic Affairs is to ensure the delivery of quality degree programs that provide students with knowledge, skills, and competencies to prepare them for success in their chosen careers, motivate them to pursue graduate and advanced study, and equip them for meaningful interaction with diverse groups of people.

The Office of the Provost and Vice President for Academic Affairs is committed to providing faculty with opportunities and activities that enhance teaching, foster involvement in research and other scholarly endeavors, and promote participation in university and community services.
Grambling State University combines the academic strengths of a major university with the benefits of a small college, a combination that enables our students to grow and learn in a serene and positive environment. We offer more than forty (40) undergraduate and graduate degree and certificate programs through four colleges, including two professional schools and a graduate school.

Student-to-faculty ratio: 20:1

Grambling State
Strategies to Grow Enrollment and Degrees

**WISE Scholarships**

As part of the Grambling State University Workforce and Innovation for a Stronger Economy (WISE) Initiative, nineteen (19) scholarship awards were presented to students majoring in Computer Science, Engineering Technology, Accounting, and Computer Information Systems. The focus of the WISE Initiative is to increase enrollment in these high-demand areas and to ensure that high-quality graduates transition effectively into the Louisiana workforce. The scholarship is awarded to incoming freshmen, continuing students, and graduating seniors who have a 3.0 or higher grade point average and evidence of service-learning, community service and/or successful completion of an internship.

**Workforce and Innovation for a Stronger Economy (WISE) Scholarship Recipients**

- ALICKSON ALEXANDER
- DWIGHT ANDERSON
- TRACEY BROWN
- ALICIAN CLARK
- LALA COULIBALY
- DEMARION CRAYTON
- MICHAEL HENDRIX

- PRENTISS SMILEY
- KENISHA WARRINGTON
- TRACEY WARRINGTON
- DARNEL WILLIAMS
- JAHMAI WILLIAMS

**LED-CIS Scholars Program**

The Grambling State University cooperative endeavor with the Louisiana Department of Economic Development serves to increase the number of graduates in Computer Science and Computer Information Systems. The following students participate in the LED-Computer Information Systems (CIS) Scholars Program. These students receive academic stipends and serve as peer tutors.

**LED-Computer Information Systems (CIS) Scholars**

- NATHALIE ALFRED
- SREY BRUNEY
- CHELSI FLOORANT
- DEVIN JONES
- MAURICE LANDRUM
- CAITLIN MCDOWELL
- LA’TERIOUS POUNCEY
- FARON RUSH
- PRENTISS SMILEY
- ALISHA THOMAS

Some of the accomplishments of the academic year in science, technology, engineering and mathematics include:

Grambling State University received its third cycle of grant funding from the National Science Foundation in the amount of $2.2 million to produce more undergraduates pursuing degrees in STEM, particularly in the fields of math, physics and data analytics.

A 4-day Big Data Science Camp provided high school students with opportunities to analyze data relevant professional careers in music, athletics, business, the military, science, and more.

Engineering Technology faculty and students attended the National Society of Black Engineers (NSBE) National Convention in Pittsburgh, Pennsylvania, and the Associated General Contractors of America Convention in New Orleans, Louisiana.

A project proposal entitled, “Mechanisms underlying nonalcoholic fatty liver disease,” and written by Dr. Paul Kim, the Ernest E. Just Endowed Professor in Biology, was funded by the Louisiana Biomedical Research Network in the amount of $300,000.

Dr. Naidu Seetala, the Edward Bouchet Endowed Professor in Physics, was invited to present in Paris, France, at the Twenty-Sixth Annual International Conference on Composites/Nano Engineering and THERMEC 2018, the 10th International Conference on Processing & Manufacturing of Advanced Materials Processing, Fabrication, Properties, Applications.

Dr. Waneene Dorsey, Professor of Biology, was awarded a $328,000 grant from Louisiana Biomedical Research Network to support cancer research, specifically, the “Role of Autophagy in Mammalian Cells Exposed to Pentachlorophenol.”

Grambling State University has received initial approval of an articulation agreement with Logan University to establish a 3 + 3 program in which GSU students earn the BS and the Doctor of Chiropractic (DC) degree in 7 years.

Campers learned the basics of electrical circuits and computer science, how to leverage programming, and put to work and present their learning using robotics at the summer Robotics and Coding Camp for youth.
Grambling State University continues a growth pattern in its enrollment, setting a fall enrollment record for the third consecutive year with 5,188 students enrolled for Fall 2017. Increasingly, students are selecting GSU for the academic programs and student life we have to offer.

Included in the totals are 4076 undergraduate and 1112 graduate students, representing 40 states and 25 countries.

Academic Partnerships

Some of the institutions, organizations and agencies in which Grambling State University partnered during 2017-2018 to enhance its academic programs include:

**Louisiana Delta Community College**
The Memorandum of Understanding (MOU) established a 2+2 agreement with the GSU Department of Family and Consumer Sciences and Delta’s School of Liberal Arts and Business Technology, and allows Delta students earning the AAS degree in Care & Development of Young Children to transfer earned credit hours toward requirements needed to complete the BS in Child Development & Early Literacy at GSU.

**Logan University**
Initial approval to establish a 3+3 Articulation Agreement with Logan University, located in Chesterfield, Missouri, has been granted by the University of Louisiana System Board of Supervisors to provide GSU students with an opportunity to earn the BS degree in Biology and the Doctor of Chiropractic (DC) degree in seven years.

**Meharry Medical College**
The existing MOU with Meharry Medical College (MCC), located in Nashville, Tennessee, was renewed and serves to increase the number of African American physicians through the GSU-MMC BS/MD program. 18 GSU students participated in summer internships at MMC during summer 2017 and 2018.

**Society for Financial Education and Professional Development, Inc.** This MOU serves to establish a Student Ambassador Program with the GSU College of Business. The primary goal is to infuse financial literacy training into the education of college students, empower students to be able to make sound financial decisions during school and after graduation, and to increase college/university retention and graduation rates.

**United States Environmental Protection Agency (EPA)** The MOU with the EPA will provide experiential learning opportunities via the College Underserved Community Partnership Program (CUPP). The program will foster student recruitment and internships, develop joint projects between EPA and GSU STEM and social science faculty, and promote community development and engagement opportunities for GSU students.

DID YOU KNOW?

IT’S BEEN 15 YEARS SINCE AN SGA PRESIDENT SERVED TWO TERMS AT GRAMBLING STATE UNIVERSITY!
What is NSSE?

The NSSE collects information from 1st year and senior students about the characteristics and quality of their undergraduate experience. The results provide an estimate of how undergraduate students spend their time and what is gained from attending an institution of higher learning.

Student Engagement and High-Impact Practices

Results from the National Survey of Student Engagement (NSSE) help to confirm the value of a Grambling State University education. In several engagement and high-impact practice indicators, GSU scored well above regional peer institutions.

OUR MISSION

Meharry Medical College is an academic health center that exists to improve the health and health care of minority and underserved communities by offering excellent education and training programs in the health sciences. True to its heritage, Meharry places special emphasis on providing opportunities for people of color, individuals from disadvantaged backgrounds, and others regardless of race, ethnicity; delivering high quality health services; and conducting research that fosters the elimination of health disparities.

Miss Senior Raegan Nation, Biology Major
GSU-MMC BS/MD Program
Distinguished Faculty and Students

Our talented Grambling State faculty and students are set apart by the many contributions and accomplishments made throughout the academic year. Some are highlighted below.

Mass Communication graduate student **Tayler Davis** was one of two winners of the Thomson Reuters/White House Correspondents’ Association Trust in Reporting Scholarships. Ms. Davis received an invitation and attended this year’s White House Correspondents Dinner.

**Dr. Joseph Henry**, the Conrad Hutchinson Endowed Professor of Music, traveled to England with St. Mark’s Cathedral Choir of Shreveport to give concerts and to provide music for liturgies at important Anglican churches. These prestigious venues included Great St. Mary’s Church in Cambridge, and both Guildford Cathedral and Salisbury Cathedral in London.

Grambling students **Keyara Bowser, Roynisha James, Chello Middleton, Aubreion Bobb** and **Dr. Mary Ghongkedze**, MEI Faculty Sponsor, participated in the NASA Minority University Research and Educator program (MUREP) and Minority Educator Institute (MEI) for preservice teachers and faculty sponsors from Minority Serving Institutions (MSIs) in an effort to contribute to improving K-12 STEM education. The MEI Institute was held at the Stennis Space Center in Mississippi.

**Dr. James Clawson**, the Ann Petry Endowed Professor of English, attended the Annual Digital Humanities Summer Institute at the University of Victoria, British Columbia, Canada. The institute focuses on new computing technologies and how they are influencing teaching, research, dissemination, creation, and preservation in different disciplines, via a community-based approach.

Music (vocal) and Visual and Performing Arts (theatre) major and two-term Student Government Association (SGA) President **Adarian Williams** landed two summer internships on Capitol Hill in Washington, DC, with Majority Whip Steve Scalise and U.S. Senator Bill Cassidy of Louisiana.
Continuing Education and Service-Learning (CESL)

This year's summer camps offered by CESL are getting a new twist at Grambling State. Our growing list of summer camps and learning opportunities for ages 4 & up includes:

**Introduction to Embedded Computing & the Internet of Things (IOT) Camp**  Participants learn about embedded computers and how the IOT powers almost all of our world, including cars, displays, computers, and more.

**PLC-Programmable Logic Controller Workshop**  Participants get training and a jump start on career paths to work in control and automation, and learn skills that can be used to leverage work with sensors, circuits, actuators, and the logic programming driving today’s innovations.

**The Use of Biotechniques in the Environment**  Students learn how to perform biotechniques used in chromatography, DNA extraction, cell type identification, protein migration, and water quality analysis.

**Provost Leadership Camp**  From reading and writing help to public speaking and foreign language tips, the Provost and campus mentors help build the next generation of leaders.

**Kid’s Educational and Recreational Camp**  Campers engage in a variety of physical and educational activities, including arts and crafts, sports, culture, field trips and much more.

**Straight Talk for Youth Empowerment**  From goal setting and interpersonal skills to team-building and quality leadership, this camp focuses on developing well-rounded student leaders.

**Fabric Art & Handmade Vintage Craft Day Camp**  Get expert help with a 3-day fabric art project to help renovate your space, office, or just to make a great gift. Past projects include Kentucky heritage bears, embroidery projects, dolls made from everyday socks, friendship bracelets, and more.

**GSU Tiger Cub Science, Technology, Engineering, Art, and Mathematics (STEAM) Camp Experience**  This camp focuses on a fun, interactive, educational approach to learning that uses Science, Technology, Engineering, Art and Math as access points for guiding the Tiger Cub’s inquiry, dialogue, and critical thinking.
