

### RN-BSN Program

The RN-BSN track is a post licensure option to the Bachelor of Science in Nursing with 120 credit hours. The Student is required to be Registered Nurses (RN) and must have completed the pre-requisite courses (60 credit hours) from the Freshman and Sophomore Years. Credit for the clinical based courses (30 credit hours) from the Junior Year and Summer Session will be awarded by examination. The students will take the Health Assessment Course (5 credit hours) from the first semester of the Professional Component in the Summer and complete the Fall and Spring Semesters (25 credit hours) from the Senior Year in residence to complete the program of study and be awarded the Bachelor of Science in Degree in Nursing from Grambling State University. A senior project will be completed in lieu of an exit examination.
