

March 28, 2011

Dear:

This letter is to inform you that your mid-term grade is below 80% in N206. It is imperative that you schedule an appointment with the Program Director and/or Academic Advisor to identify a plan to succeed in the BSN program.

As stated in the Grambling State University School of Nursing Student Handbook an 80% is required to be successful in this/these course(s). Please refer to the policy below:

In order to be retained and progress in the professional nursing curriculum, a student must make a grade of "C" or better in all courses in the professional nursing program.

Dismissal from the nursing program will occur whenever a student has either/or:

1. Failed the second enrollment of the same nursing course in the professional component.
2. Failed the second nursing course in the professional component. (Effective 1/2008)

In the professional segment, failure is defined as achievement of a grade of "W", "D" or "F" **and** if the student withdraws from the course with a failing grade at the time of withdrawal. (Effective 8/10). Enrollment in a nursing course is defined as completion of any **unit** examination in that course. Students must earn a minimum theory grade of "C" or better and a satisfactory clinical component evaluation in order to successfully complete any clinical/lab course and progress to the next level nursing courses.

This letter is provided to make you aware of your current status in your Nursing Theory course(s). For your information, the last day to withdraw is April 4, 2011.

Sincerely,

Angelique White-Williams DNS, APRN-CNS
Associate Dean School of Nursing
