*"Excelling in Public Administration and
Managerial Professionalism for the 21st Century"*

Mission and Overview

MASTER of PUBLIC ADMINISTRATION

The mission of the Master of Public Administration Program is to prepare individuals from diverse and multicultural backgrounds for administrative careers in federal, state, and local government services and other public and non-profit organizations. The MPA Program prepares its students to be critical thinkers who are capable of applying the knowledge of public administration specifically in the areas of policymaking, policy evaluation and execution with a focus on ethical conduct in public management. The Master of Public Administration Program at Grambling State University is the only accredited MPA program in north Louisiana and one of only two accredited MPA programs in the state of Louisiana.

The major objectives of the MPA Program are: (1) to provide students with the intellectual insights, professional competence, and analytical techniques that will prepare them for service in public agencies and non-profit organizations; (2) to provide in-service professionals in Louisiana and other parts of the country with the opportunity to upgrade their management skills and administrative training, thereby enhancing their possibilities for career advancement and concurrently increasing their understanding of local governance, public finance and human resource management.

The Department of Political Science and Public Administration offers the following graduate degree: Master of Public Administration (MPA) with a concentration in one of four areas:

- Public Management
- State and Local Government
- Human Resource Management

Students who are accepted into the MPA Program must complete core courses and specialty courses in at least one area of concentration.
