I.

Mrs. Winzer presented that the data showed that the trend is that generally we lost most of our students between sophomore and junior year. 31 students change their majors during that time period due to Praxis test. .

II. Students Graduation rate

We also look at how many students have completed course work, but have not graduated. The data showed between September 2017-August 2018 41 students

attempted and 24 passed/59% passage rate and 17 not passed. September 2018-August 2019 23 students' attempted and 11 passed 48% passage rate 12 not passed.

III. Praxis I Math Data

From our data from September 2017- August 2018 52 students attempted, 9 passed/ 17 passage rate, 43 not passed. From September 2018-August 2019 49 students attempted, 8 passed 16% passage rate 41 not passed.

IV. Praxis I Writing

Our data showed that from September 2017- August 2018 53 students attempted 8 passed 15% passage rate 45 not passed

From this data information we concluded that to closely align our classes to the content of the exam in our professional development courses. It was also discussed to add a lab for Ed 112 & ED 209.

Mrs. Mixon created a Praxis list of students who needed Praxis II so that they could be mentored.

We will create Praxis bootcamps they more aligned with the student's schedule.
