## **FIELD EDUCATION INSTRUCTION SWK 512, SWK 522, SWK 633, & SWK 638**

Students are required to complete a minimum of 900 clock hours of field instruction which consists of two (2) days per week, eight (8) hours per day for four (4) semesters. Field practicum must take place at a pre-approved site; examples of which include health care facilities, mental health facilities or other social service agencies. Each semester a minimum of 225 clock hours must be completed. Field Instructors for the field practicum will be social work practitioners who have met pre-established criteria and work in various North and Central Louisiana agencies. Each field practicum assignment is for two (2) consecutive semesters. A mandatory monthly field seminar is required for advanced (second year) students. Because of the geographic area of north central Louisiana, students may be required to commute an hour one way to a field placement. It is the responsibility of the student to make transportation arrangements to their field practicum agencies. It is also the responsibility of the student to have chosen 3 sites as documented in their field application, which they have visited and acquired permission to use, as a field practicum agency. The school is not responsible for any expenses they may incur due to traveling to and from field practicum placement. Attempts will be made to place students in close proximity to their home base without compromising placements. A Field practicum is permitted in one's place of employment upon approval from the Field Director/Interim Field Director.

**A nominal field fee of \$50.00 per semester (paid during registration) is required to defray the cost of student liability insurance.**
