## Enjoy a Safe and Healthy Fall Season

### Get Your Flu Shot

Autumn is the start of flu season, and doctors recommended everyone 6 months and older gets vaccinated against the flu. Learn more about flu prevention and the flu vaccine (</home-safety/tools-resources/seasonal-safety/winter/flu>).

### Have No Fear! Halloween is Here

Halloween is a fun-filled time for children, but there are many dangers associated with the holiday unrelated to ghouls, goblins and witches. Parents need to take the necessary Halloween safety precautions (</home-safety/tools-resources/seasonal-safety/autumn/halloween>) to make sure their children remain safe while still having fun.

### Drive Safely as it gets Darker

Daylight Saving Time ends every year on the first Sunday in November. This means it starts to get darker earlier. As we set our clocks backward by one hour in most areas of the country, here are some tips for driving at night (</road-safety/safety-topics/night-driving>).

Green Cross Tip: When you change your clocks, it's also a great time to check the batteries in your smoke alarms and carbon monoxide detectors.

Keep Children Safe at School

As summer draws to a close, back-to-school season is in full effect. Remember to safely share the roads with school buses, pedestrians and bicyclists, and provide children with the necessary knowledge to stay safe at school.

SCHOOL SAFETY TIPS »

Have Fun Safely

Outdoor activities are a great way to be active and stay in shape. Make sure you don't put an end to the fun because of an injury.
