Highest Level of Education: _____

College / University: _____

Major (and/or Optional Minor): _____

2.) Emergency Contact Information:

Name: _____ Relationship to the Applicant: _____

Contact Number: _____

3.) Continuing Education Courses: Please select the course(s) you would like to enroll.

Course Details		Fee
SUMMER CAMPS		
☐	CEU – HON 0001 Provost Leadership Camp I (Ages: 10-12) <i>Provides learners with the necessary keys to strengthen leadership skills. Methods to increase reading, writing, speaking and other skills essential for success will be discussed. The students will shadow a campus mentor for a day and have a reflection period with their respective mentors. Movies and games will be used to identify skill sets to strengthen leadership skills. Students will also learn about a new culture and basics of a foreign language. Lunch is included.</i> Instructor: Dr. Ellen D. Smiley Dates: June 18th, 2018 – June 22nd, 2018 Location: Jacob T. Stewart Building, Room 234 Time: 9.00 a.m. – 4.00 p.m.	\$75
☐	CEU – HON 0002 Provost Leadership Camp II (Ages: 10-12) <i>Provides learners with the necessary keys to strengthen leadership skills. Students will be introduced to various cultures and increase soft skills. Additionally, they will shadow a campus mentor for a day and have a reflection period with their respective mentors. Lunch is included.</i> Instructor: Dr. Ellen D. Smiley Dates: June 25th, 2018 – June 29th, 2018 Location: Jacob T. Stewart Building, Room 234 Time: 9.00 a.m. – 4.00 p.m.	\$75

☐	CEU – SC 001 Fabric Art and Handmade Vintage Craft Day Camp <i>This is a three-day hands-on camp with a duration of three hours per day. Participants will complete two fabric art projects that can easily be taught to children from preschool age to adults and can be used for a host of decorating ideas at school, church, and home. Also, the fabric art projects make for great handmade gifts. The instructor will introduce, demonstrate, and display projects that are vintage handmade crafts and will take more time and equipment to complete than will be allowed at camp. Some of the other handmade projects include but are not limited to: Kentucky heritage bears, Mississippi beautiful dolls made from everyday socks, Virginia friendship collars, Kentucky and Colorado chicken scratch/snowflaking embroidery projects, Georgia crochet items, Kentucky strung beads, Louisiana friendship bracelets, Kentucky and Mississippi quilted items, and more handmade items for a genuine crafter's exhibit. All materials are included in the fee.</i> Instructor: Dr. Frankie Rabon Dates: July 10, 2018 – July 12, 2018 Location: TBA Time: 9:00 a.m. – 12:00 p.m.	\$60
☐	CEU – SC 002 Coding and Robotics Workshop (Ages: 8 – 16) <i>This camp will provide an introduction to how a computer works and the instructions that it executes to perform meaningful tasks. Campers will learn how to structure instructions for the computer and will see their instructions being executed in the SCRATCH programming environment which is a visual tool for learning programming. Campers will then modify and program their code to the FITCH robot. They will continue to modify and reprogram their robot based on feedback from the robot's execution of the desired tasks. Campers will also become familiar with the various sensors and actuators on the FITCH robot and how they can use them to design their own tasks. Campers will then learn about the basics of electrical circuits and how they can translate their new skills to programming embedded computers. At the end the campers will present one of their programs for the FTICH and one of their programs for the embedded computer. Each attendee will receive lunch during the camp, a camp T-shirt, and an embedded sensors kit to continue expanding their skills after the camp.</i> Lunch is included. Instructor: Mr. Lane Elie Dates: June 11, 2018 – June 14, 2018 Location: T.L. James Hall, Room 109 Time: 9:00 a.m. – 3:00 p.m.	\$85

☐	CEU – SC 003 Introduction to Embedded Computing and the Internet of Things (IOT) (Ages: 12 and older) <i>Embedded computers are the type with the largest distribution. These dedicated function computers are used in almost every device such as cars, medical equipment, household appliances, toys as well as mobile devices. These computers accept input, perform some arithmetic or logic and output a result.</i> <i>The Internet of Things (IOT) is an emphasis to provide the resources to gain information from and control of electronic devices. These resources include network connectivity, security and web platforms.</i> <i>This course covers the fundamentals of programming the Arduino microcontroller with the ESP8662 WIFI module. Interfacing various sensors with the embedded computer will be covered as well as interfacing Relays, displays and other external circuits. The course cost covers the cost of your IOT materials that you will keep after the course.</i> Instructor: Mr. Lane Elien Dates: July 2nd, 3rd, 9th, 10th, 2018 Location: T.L. James Hall, Room 109 Time: 5:00 p.m. – 7:30 p.m.	\$65
☐	CEU – SC 004 PLC – Programmable Logic Controller Workshop (Ages: Open) <i>This workshop seeks to equip the attendees with skills to get jobs in controls and automation. These skills can also be applied using platforms other than PLCs. This course will introduce programming logic controllers and their applications. Attendees will learn how to design ladder logic diagrams to implement desired functions. They will also use RS Logix 500 software to design ladder logic for the Micrologic 1200 Allen Bradley PLC. Projects will utilize various input and output and attendees will learn how to interface various sensors and actuators with the PLC. The workshop will also cover pneumatic and Hydraulic circuits and to design logic to control these actuators. Lastly, we will study how to implement PLC logic in programs for embedded computers such as Arduino.</i> Instructor: Mr. Lane Elien Dates: July 16th, 17th, 23rd, 24th, 2018 Location: T.L. James Hall, Room 110 Time: 5:00 p.m. – 7:00 p.m.	\$35

☐	CEU – SC 005 The Use of Biotechniques in the Environment (Ages 11-13) <i>Students will learn how to perform biotechniques used in chromatography, DNA extraction, cell type identification, protein migration, and water quality analysis on pond water.</i> Instructor: Dr. Waneene Dorsey Dates: June 6, 2018 Location: Carver Hall, Room 54 Time: 1:00 p.m. – 5:00 p.m.	\$15
☐	CEU – SC 006 Kid’s Educational and Recreational Camp (Ages 7-12) <i>The goal for this camp is to engage each child in a variety of physical and educational activities. Activities include arts, crafts classes, sports clinics, fitness sessions, cultural enrichment classes, games, field trips and much more. Lunch is included.</i> Instructor: Ms. Daphne Tolliver Dates: June 4th, 2018 – June 8th, 2018 Location: Assembly Center Time: 9:00 a.m. – 3:00 p.m.	\$35
☐	CEU – SW 001 Straight Talk for Youth Empowerment (Ages 12-18) <i>Students will spend time in a structured setting working on goal setting, interpersonal skills, team building and developing quality leadership skills. The event will culminate with each student developing a vision board which can be taken home and displayed in an area where they can see it daily. Our people are perishing because of a lack of vision—we, in the School of Social Work, want to change that. We want these young people to become visionaries. We want them to understand the power they have to decide and direct their future in order to become educated, informed and successful people.</i> Instructor: Ms. Cassandra Peoples Dates: June 11th, 2018 – June 15th, 2018 Location: Charles P.Adams, Room 313 Time: 9:00 a.m. – 12:00 p.m.	\$35

CHILD DEVELOPMENT		
☐	CEU – CDFR 1B Focus in the Classroom – Toddlers (CDA 7) <i>This course will provide strategies to help teachers keep toddlers focused in the classroom. (Textbook Required: “Teaching Strategies, Classroom focus Toddlers, and Classroom Focus Preschoolers” \$65-separate from course fee)</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35
☐	CEU – CDFR 1C Focus in the Classroom – Preschoolers (CDA 7) <i>This course will provide strategies to help teachers keep preschooler focused in the classroom. (Textbook Required: “Teaching Strategies, Classroom focus Toddlers, and Classroom Focus Preschoolers” \$65-separate from course fee)</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35
☐	CEU – CDFR 1D Teaching Strategies – Learning Birth Through Kindergarten (CDA 7) <i>This course covers observational assessment of children from birth through kindergarten. It will help teachers to identify how best to address the learning diversities this cohort brings to the learning/teaching environment. (Textbook Required: “Teaching Strategies, Classroom Focus Toddlers, and Classroom Focus Preschoolers” \$65-separate from course fee)</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35
☐	CEU – CDFR 11 The CDA (Child Development Associate) Credential Process (CDA 6) <i>This course will provide guidance to CDA candidates striving to obtain the CDA credential. (Required Textbook: “Third CDA Prep Guide – The Complete Manual” by Debra Pierce)</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$60

☐	CEU – CDFR 0014 Relationship – Centered Approach: Focusing on ADHD (CDA 3) <i>This course is on helping teachers and parents engage in a mindful approach to help children gain focus and self-control. It follows the relationship-centered approach that is designed to help children succeed behaviorally, socially, and cognitively. (Required Textbook: “The Conscious Parent’s Guide to ADHD”)</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35
☐	CEU – CDFR 0016 Parents are Their Children’s First and Life-long Teachers (CDA 4) <i>Parents are their children’s first and life-long teachers. This course is for parents and teachers of children from birth to age six. The focus is on encouraging children’s natural development from birth to age six.</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35
☐	CEU – CDFR 0018 Brain Building: Nurturing Children’s Developing Minds (CDA 8) <i>Twelve revolutionary strategies to nurturing children’s developing minds is the focus of this course.</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35
☐	CEU – CDFR 0019 The Importance of Fathers in the Healthy Development of Children (CDA 4) <i>This course is designed to help students: recognize the value of fathers to children; appreciate the importance of fathers to the case planning and service provision process; understand the issues unique to working with fathers; effectively involve fathers in all aspects of case management, from assessment through case closure; and work successfully with fathers in a wide range of family situations and structures. (Required Reference: The Expectant Father”)</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35

FAMILY AND CONSUMER SCIENCES

☐	CEU – FCS 07 Marriage and Family Relationships (CDA 4) <i>This course will include the many changes in marriage and family relationships. Such topics include: What Marriage Means; Historical Perspective on Marriage; Comparing Marriage, Cohabitation, and Being Single; Mate Selection; Interracial Marriage; and more. (Textbook Required: “The Changing Nature of Marriage and Family: An Anthology on Relationships.”)</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35
--------------------------	--	-------------

SAFETY

☐	CEU – SAFE 5 Developing Your Individual Safety Plan (CDA 1) <i>This course will assist the individuals to develop their safety plan to increase their survival chance from possible violent crimes they may encounter from perpetrators planning to do them harm. This includes such crimes as bullying, hazing, raping, active shooter, murder, robbery, fighting, and harassment. (Textbook: “Developing Your Proactive Plan: Campus Safety and Self Defense”)</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35
☐	CEU – SAFE 6 Keeping Infants, Toddlers, and Preschoolers Safe: Childcare Centers (CDA 1) <i>Childcare centers around the nation are no longer safe havens for young children from perpetrators whose only mission is to do harm. This course will assist the learners in developing a proactive safety plan for their child care centers in an effort to increase survival chances for young children and those who provided them with care. (Textbook: “Developing Your Proactive Plan: Campus Safety and Self Defense”)</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout 2018 Summer Session Location: 100% Online Time: 100% Online	\$35

☐	CEU – SAFE 7 Church, Holidays, Home, and Large Gatherings Safety Management <i>Churches are no longer immune to acts of violence. Many churches are built in such a fashion where there is no escape from people who wish to do harm. With an open-door policy that welcomes all, makes church goers vulnerable to predator's acts of violence. This courses focus is on teaching learners best safety practices that will help increase their chances of surviving in the church, at home, and at large gatherings. (Textbook Required: "Developing Your Proactive Plan: Campus Safety and Self Defense")</i> Instructor: Dr. Frankie Rabon Dates: Available Throughout Summer 2018 Session Location: 100% Online Time: 100% Online	\$35
BUSINESS		
☐	CEU – BUS03 A to Z of Entrepreneurship: How to Start and Run your Own Business <i>This program is a practically oriented entrepreneurship workshop. It is designed to ground participants in the pathway to starting and operating an own business. It focuses on techniques for recognizing, evaluating and exploiting business opportunities. Participants will optionally work as individuals or in teams to identify and industry and product line for exploitation. Each participant or team of participants shall be required to undertake environmental scan, identify a business opportunity, develop a business plan and submit the plan to the facilitator on a prescribed date. Participants shall be required to present their business plan orally on the last day of the workshop with the aid of power-point. Certificates shall be issued to participants who successfully complete the program.</i> Instructor: Dr. Augustine Dzathor Dates: July 2nd, 5th, 9th, 12th, 16th, 19th, 2018 Location: Jacob T. Stewart Building, Room 262 Time: 6:00 p.m. – 9:00 p.m.	\$250
